

Risk management update: a surge in claims

With a cyclical economy, we continue to observe a significant surge in the volume and size of claims filed by our customers in North America.

To illustrate the sector volatility throughout the past few years, here's an overview of the claims trends and the current risk assessments from 2022 to June 2024.

All sectors have suffered from disruptions or maintained signs of weakness for quite some time. These two defining factors and the current economic climate continue to influence the assigned risk level.

Year to date, we have seen a **11% increase** in the dollar amount of claims filed, as well as a **28% increase** in the volume of claims.*
