Euler Hermes launches South Africa operations

Euler Hermes is launching services for the South African market, strengthening its presence on the African continent as well as growth markets overall.

Based in Johannesburg, Euler Hermes operations include a re-insurance agreement with Allianz Global Corporate & Specialty (AGCS) South Africa Limited. The collaboration combines Euler Hermes global market presence and trade credit expertise with AGCS's existing South African business relationships and in-depth knowledge of the local business community.

Euler Hermes France launches "EH Fraud Cover": a new insurance policy against company fraud risk

With expertise in credit insurance, collection and bonding, Euler Hermes decided to complement its line of products and services by providing companies with insurance against the risk of fraud and cyberfraud. This move is backed by the more than 30 years' experience and success of this business line in Germany, where Euler Hermes already has a portfolio of more than 7,000 policies. The Group therefore expects a rapid start-up of this activity in France, which will consolidate its position as the fraud insurance leader in Europe.

2.1. General Principles

In accordance with European regulation no. 1606/2002 of July 19th, 2002, the consolidated financial statements published as at June 30th, 2015 were prepared in accordance with IAS 34 as adopted by the European Union. International accounting standards comprise IFRS (International Financial Reporting Standards) and IAS (International Accounting Standards), together with their interpretative texts. These interim financial statements should be read in conjunction with the consolidated financial statements of the group as at December 31st, 2014, prepared in accordance with IFRS standards as adopted by the European Union.

The standards and interpretations applied stem essentially from:

- IAS/IFRS and their interpretative texts whose application is mandatory at June 30, 2015 as adopted by the European Union;
- Guidance provided in CNC recommendation no. 2013-R05 relating to the format of financial statements prepared by insurance firms under international accounting guidelines.

The financial statements are presented in euros, the functional currency, rounded to the nearest thousand. They have been prepared on a historical cost basis except for asset and liability items relating to insurance policies, which are measured in accordance with the methods already applied by the Group and for financial instruments measured at fair value (financial instruments at fair value through the consolidated income statement and available-for sale financial instruments). Non-current assets and groups of assets held with a view to being sold are measured at the lower of carrying amount and fair value less selling costs.

2.2. Changes in the accounting framework applicable to the Group in 2015

Standards, amendments and interpretations for which application is mandatory from January 1st, 2015 are the following ones:

- IFRIC 21, Levies

IFRIC 21, Levies was published on May 20, 2013 and were adopted by the European Union on June 13, 2014, with mandatory retrospective application from January 1st, 2015 at the latest.

With a view to the first-time application of this standard, the Group undertook an inventory of the levies imposed by the government or government bodies and the trigger event of its exigibility. The procedures performed did not identify any material impact of the first-time application of this standard.

No other new standard, amendment or interpretation with significant impact on the financial statements of the Group, is mandatory for the Group from January 1st, 2015.

Early application of standards

The Group has not early adopted standards and interpretations that are not yet mandatorily effective as of January 1st, 2015.

2.3. Use of estimates

The production of the consolidated financial statements of the Group is based on estimates for a part of assets and liabilities items. The management is called upon to review these estimates in the event of changes that may alter the basis on which they have been established or due to the consideration of new information or accrued experience.

The estimates concerning technical provisions are also detailed in the section 4 “Major risk factors and their management within the Group” of the 2014 Registration Document.

The table below summarizes the assessment methods of estimates for the main aggregates of the balance sheet:

Estimate		Communicated Information
Note 3	Impairment of goodwill	An impairment of goodwill is recognised when the higher of the Cash Generating Unit's value in use (present value of future cash flows) and fair value less any selling costs is less than its carrying amount (share of net assets and goodwill). The fair value of the Cash Generating Unit's is based on assumptions of capital costs, growth rate to infinity and loss ratio & standard retention rates used in the calculation of the final values.
Note 4	Fair value of real estate held for investments & for use	The fair value of buildings is estimated based on market prices, adjusted, where applicable, to take into account the nature, location or other specific features of the building concerned.
Note not published	Provisions for risks and charges	Provisions for risks and charges are measured in accordance with IAS 37 and are reviewed and adjusted at each balance sheet date to reflect the best estimate at this date.
Note not published	Employee benefits	The related commitments are measured in accordance with IAS 19 Revised and are reviewed yearly by independent actuaries. The commitment is recognized in the balance sheet using the projected unit credit method, based on the group actuarial assumptions.
Note 8	Earned but not recorded premiums reserves	This reserve is established based on the estimate of the amount of premiums expected on the period less the amount of premiums recorded on the period.
Note 8	Provisions for salvages & recoveries	This reserve represents the estimate of potential recoveries on settled claims by a statistical calculation based on the evolution of salvages & recoveries by year of attachment on previous exercises. They take into consideration a provision for administration charges determined in accordance with actual observed expenses.
Note 8	Bonus & profit commission reserve	This reserve is intended to cover the future cost corresponding to premium rebates to be granted to policyholders under the terms of policies giving policyholders a share in their technical positive results.
Note 8	Reserves for claims payable	This reserve corresponds to a statistical estimate of the cost of all outstanding claims, that is to say claims reported but not yet settled.
Note 8	IBNR reserve	IBNR reserves are established to recognize the estimated cost of losses that have occurred but where the Group has not yet been notified. The Group relies on its past experience, adjusted for current trends and any other relevant factors to estimate IBNR reserves. IBNR are estimates based on actuarial and statistical projections of the expected cost of ultimate settlement and administration of claims. The analyses are based on facts and circumstances known at the time, predictions of future events, and other economic factors.
Note not published	Stock option plans	The fair value of the liabilities resulting from the Allianz and Euler Hermes Group SAR (Stock Appreciation Rights) and RSU (Restricted Stocks Units) plans is reassessed at each balance sheet date based on the Allianz share price and Euler Hermes Group share price, until expiry of the obligation. The fair value from SAR and RSU is calculated using the Cox-Ross-Rubinstein binomial valuation model.

Note 3 Goodwill

In accordance with IFRS 3, goodwill is not amortized but is subject to impairment tests which are performed on a systematic annual basis and as soon as there is any indication of loss in value.

Note 5 Financial investments

Classification by accounting method

For an instrument that is listed on an active market, the fair value is the bid price on the valuation date for an asset held or a liability to be issued and the offer price for an asset intended to be purchased or a liability intended to be held. If such prices are not available, the fair value is estimated based on the most recent transaction price.

If there is not any active market for a given financial instrument, the Group estimates the fair value by using a valuation technique. Valuation techniques include the use of recent transactions under normal competitive conditions between informed and consenting parties, where available, reference to the current fair value of another instrument that is identical in substance, the analysis of discounted cash flows and option valuation models.

Concerning the non-listed investments, the Group estimates the fair value by using a valuation technique. Valuation techniques include the use of recent transactions under normal competitive conditions between informed and consenting parties, where available, reference to the current fair value of another instrument that is identical in substance, the analysis of discounted cash flows and option valuation models. The non-listed investments are mainly German mortgage bonds (*Pfandbriefe*).

There was no significant impact of impairment on the Group portfolio as of June 30, 2015. The Group does not hold any financial assets such as "dynamic treasury mutual funds" or "subprime investments".

Statutory Auditors' Review Report on the half-yearly consolidated financial statements

For the period from January 1 to June 30, 2015

To the Shareholders,

In compliance with the assignment entrusted to us by your Shareholders' General Meeting and in accordance with the requirements of article L.451-1-2 III of the French Monetary and Financial Code ("Code monétaire et financier"), we hereby report to you on:

- the review of the accompanying condensed half-yearly consolidated financial statements of Euler Hermes Group SA for the period from January 1 to June 30, 2015?
- the verification of the information presented in the half-yearly management report.

These condensed half-yearly consolidated financial statements are the responsibility of the Group Management Board. Our role is to express a conclusion on these financial statements based on our review.

I. Conclusion on the financial statements

We conducted our review in accordance with professional standards applicable in France. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with professional standards applicable in France and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed half-yearly consolidated financial statements are not prepared in all material respects in accordance with IAS 34 - standard of the IFRSs as adopted by the European Union applicable to interim financial information.

II. Specific verification

We have also verified the information presented in the half-yearly management report on the condensed half-yearly consolidated financial statements subject to our review. We have no matters to report as to its fair presentation and consistency with the condensed half-yearly consolidated financial statements.
